PROFESSIONAL SUMMARY

Mobile Application Developer with hands-on experience in Flutter development and REST API integration. Strong foundation in system analysis and object-oriented programming. Passionate about building secure, scalable, and high-performance applications. Currently expanding knowledge in Android (Kotlin) and native mobile development.

EDUCATION

Bachelor of Information Technology **Graduated: Jan 2024**
Build Bright University - Siem Reap, Cambodia

- Focused on software development, databases, networking, and system analysis.
- Final Year Thesis: Developed a web application using Laravel as part of a team project.

SKILLS

Programming Languages	: Dart (Primary), Kotlin (Basic), JavaScript (Basic)
Frameworks & Technologies	: Flutter (Primary), Android SDK (Basic), React Native (Basic)
Database	: MySQL, Firebase
System Analysis & Modeling	: Flowchart, Data Flow Diagram (DFD)
Deployment & Hosting	: Google Play Store, Apple App Store, Firebase
Tools	: Git, Postman, Android Studio, Xcode, VS Code, Figma
Programming Concepts	: OOP, MVC, Functional Programming, REST API Design, SDLC

WORK EXPERIENCE

Flutter Developer **Jul 2024 - Present**
Eocambo Technology (EOT) – Siem Reap, Cambodia

- Developed 10+ Flutter (Dart) e-commerce apps, tailored to client requirements.
- Maintained and optimized legacy apps for performance, stability, and scalability.
- Implemented clean, modular code using GetX and Provider for state management.
- Collaborated with UI/UX teams to convert designs into functional apps.
- Published apps to Play Store and App Store; integrated RESTful APIs with Laravel backends.
- Conducted testing and debugging for smooth Android and iOS performance.
- Supported clients directly, addressing technical issues, gathering feedback, and ensuring requirements were met.
- Participated in team meetings to align on project goals and timelines.
- Used Git for version control and participated in agile development workflows.
- Assisted in feature planning and code reviews to improve code quality and maintainability.
- Ensured application performance optimization and secure API communication.

Flutter Developer Internship **Mar 2024 - Jun 2024**
Eocambo Technology (EOT) – Siem Reap, Cambodia

- Developed Flutter applications from UI designs and built features from scratch.
- Implemented Flutter widgets and managed state using Provider and GetX.
- Connected applications with backend APIs to display dynamic data.
- Collaborated in team projects using Git/GitLab for version control.
- Tested applications, fixed bugs, and supported client requirements.
